

# CHISWICK HOUSE AND GARDENS PLAY VALUE

## NATURAL CLIMBING

- Develops balance & coordination
- Improves fitness
- Confidence building
- Core strength
- Problem solving
- Cooperative & social play
- Physical challenge
- Fine & gross motor skills
- Risk management

## TREE LAB

- Social play
- Imaginative play
- Role and performance play
- Problem solving
- Confidence building

## DESIGN RATIONALE

The area within the existing trees would make an excellent area for natural exploration, hence our inclusion of the tree lab

## SWINGS

- Sensory experience
- Social play
- Accessible
- Gross motor skills
- Core strength

## SAND PLAY ZONE

- Sensory play
- Social & communication skills
- Transport for a purpose
- Manipulation of materials
- Fine motor skills

## DESIGN RATIONALE

By placing the climbing structure in this position it allows more free space for children to explore and draws them away from the other existing large tree. It also provides a much clearer line of sight for parents supervising their child.
